

Strategies and Intervention for learners with Pathological Demand Avoidance (PDA)

- This day Course provides an overview of how the impairments affecting those with PDA may cause difficulties.
- During attendance on this course you would expect to learn about meeting the needs of those with PDA.
- This could include some interactive activities and simple and effective strategies designed to meet a range of needs based on the impairments.
- You will investigate the type of language and presentation suitable for the needs of the individuals with PDA.
- You will learn how to promote positive behaviour through effective practice.
